

Position: **Regional Sales Manager**

Location: **Southeast**

COMPANY

iAutomation, a high technology distributor of industrial automation components, has an immediate opening for a **Regional Sales Manager (technical sales and automation)** in the **Southeast** region. iAutomation's product offering includes machine control, motion control, sensing and vision, safety systems, mechanical components and stages. We offer engineered systems and services to provide OEM and end user customers a complete automation solution.

DESCRIPTION

The Regional Sales manager will report to the Vice President of Sales and be responsible for managing the customers and resources within the territory, Account Managers (technical sales), and having key account responsibility, while executing the iAutomation sales strategy. A successful RSM will drive revenue and margin growth through strategy, management, monitoring, and reporting of sales activity within their team. In addition, you will work with Product Managers, Operations staff, Customer Service teams, and other sales management to assure a positive customer experience. This position requires a high level of activity and use of our CRM system (NetSuite) to manage your territory. A solid understanding of our product and solution offering, as well as the Industrial Automation marketplace is essential.

REQUIREMENTS & ADDITIONAL DETAILS

Qualified candidates will have a minimum of a four-year Engineering degree in a relevant field such as Mechanical or Electrical, with 7+ years' experience in industrial automation sales. Relevant experience selling similar or related products to our portfolio is a plus. A proven track record of managing and mentoring team members is essential to success in this role. Proven experience in implementing sales strategy, penetrating new potential clients, forming relationships, and growing sales dollars is crucial to your success.
