

Position: **Mechanical Engineer**

Location: **Franklin, Massachusetts**

COMPANY

iAutomation, a high technology distributor of industrial automation components, has an immediate opening for a **Mechanical Engineer** in **Franklin Massachusetts**. iAutomation's product offering includes machine control, motion control, sensing and vision, safety systems, mechanical components and stages. We offer engineered systems and services to provide OEM and end user customers a complete automation solution.

DESCRIPTION

The Mechanical Engineer will:

- Research, design, and develop tools, machine controls, equipment, and mechanical processes.
- Oversee production, installation, operation, maintenance, repair, and development of new, modified, and/or existing systems.
- Work closely with other engineering areas to obtain optimum utilization of equipment.
- Receive mentoring from more senior engineers.

REQUIREMENTS & ADDITIONAL DETAILS

Requires a Bachelor's degree in Mechanical Engineering and 3+ years' experience in design and SolidWorks. Experience quoting mechanical, pneumatic and extrusion assemblies is a plus.
