

Position: **Electronics Technician**

Location: **Franklin, Massachusetts**

COMPANY

iAutomation, a high technology distributor of industrial automation components, has an immediate opening for an **Electronics Technician** in **Franklin Massachusetts**. iAutomation's product offering includes machine control, motion control, sensing and vision, safety systems, mechanical components and stages. We offer engineered systems and services to provide OEM and end user customers a complete automation solution.

DESCRIPTION

The Electronics Technician is responsible for the assembly of Electrical Control Panels per customer orders.

- Majority of time will be spent wiring panels therefore it is imperative that candidate be proficient at wiring.
- Install and wire devices such as switches, meters, analyzers, transmitters, etc.
- Maintain necessary U.L. & other quality control files.
- Layout of components in various size cabinets.
- Mentor junior members of the team
- May assume lead role on a customer project.

REQUIREMENTS & ADDITIONAL DETAILS

Requires a minimum of a High School Education, a Technical Certificate in Electrical Controls is desired, and 3+ years' experience in control panel building, wiring, reading schematics and electrical diagrams. Experience using hand tools to drill, tap, and assemble electrical panel is a must. Highly motivated, detail oriented and able to work independently as well as in a team environment.
